EDUCATION

Currently pursuing BSc in Computer Science, University of Technology, Jamaica

Sep 2025 - May 2029 (expected)

GPA: 3.7 | Dean's List

Ardenne High School | Sep 2020 - Jul 2025

CSEC: Grade I across subjects

IT, English A, Math, Add. Math, Physics, POB, POA, Industrial Tech (Electrical), Social Studies

PROJECTS

PNTCOG Ministry Platform (portmorentcog.org)

Architected a multi-section **React** ministry website with events, giving, prayer requests, media, and a Jubilee anniversary hub. Structured modular page components for team-friendly content updates and **mobile-first** navigation.

Implemented **responsive layouts** across content-heavy pages with performance-focused delivery on **Vercel**. Built accessible form flows and a scalable **component architecture** for a live congregation audience.

weROI Agency Platform (weroi.net)

Engineered a full-stack agency platform: **React / TypeScript** SPA frontend, **FastAPI/Python** backend, and **MongoDB Atlas** persistence. Designed document models for leads, audits, and admin users.

Integrated lead-capture funnels, multi-step audit forms, and an **admin dashboard** with **JWT** authentication. Built **RESTful APIs** for lead management and connected **Resend** for transactional email.

Deployed frontend on **Vercel** and API on **Railway** with **CORS**, environment configuration, and health-check routing.

StudySync API (Personal)

Developed a **FastAPI REST API** with **JWT authentication**, **SQLAlchemy** ORM, and course deadline tracking endpoints. Used **Pydantic** schemas for request validation and OpenAPI documentation.

Webhook Relay API (Personal)

Built a developer sandbox API with API-key auth, HMAC-signed **webhook** delivery, retry backoff, and per-key **rate limiting** for testing outbound integrations.

EXPERIENCE

Software Developer (Contract), weROI

2024-Present

Delivered production web applications using **React**, **Next.js**, **FastAPI**, and **MongoDB**. Implemented **REST APIs**, authentication patterns, and deployment on **Vercel** and **Railway**.

Freelance Web Developer, Independent

2023-Present

Developed responsive websites with **component-based** architecture, **SEO**, and performance optimization for local businesses.

ACHIEVEMENTS

- Dean's List, UTech BSc Computer Science (GPA 3.7)
- Senior church volunteer and Jamaica Red Cross volunteer
- Contract and freelance delivery for ministry and agency clients

TECHNICAL SKILLS

Languages; Proficient in **Python**; **JavaScript**; **TypeScript**; **Java**; strong **SQL**; proficiency in **HTML5/CSS3**

Frameworks; **React**; **Next.js**; **FastAPI**; **Node.js**; **Express**; **Tailwind CSS**

Backend & data; **RESTful APIs**; **MongoDB**; **MongoDB Atlas**; **SQLite**; **SQLAlchemy**; **JWT authentication**; **Pydantic** validation; **OWASP**-aligned secure coding

Tools; **Git**; **GitHub**; **GitHub Actions**; **Vercel**; **Railway**; **MongoDB Atlas**; **Postman**; **Insomnia**; **Docker** (basics); **VS Code**; **Cursor**; **npm**; **pnpm**; **Resend**; **Figma**; **Linux CLI**; **Wireshark** (basics); **Chrome DevTools**; **ESLint**; **Prettier**; **Calendly** embeds

Practices; **Responsive layouts**; **component architecture**; **state management**; **CI/CD** pipelines; **API design**; **OpenAPI** documentation
